## **GUEST LECTURE ON CLOUD COMPUTING HELD AT TULA'S INSTITUTE:**

**Dehradun 29-Aug-12**

Tula's Institute - Dehradun organizes guest lectures by inviting people from different walks of life. With an endeavor to expose our students to corporate sector and increase their understanding towards the management learning by **live corporate experiences**, Tula's Institute had invited **Mr. Prashant Jain, Founder and Chief Mentor India Domain Web-services Pvt. Ltd. to interact with the students on various facets of CLOUD COMPUTING.**

This lecture was part of the Corporate Academy Interface Season V, which over the past few months has seen eminent speakers from multi-national companies deliver key note sessions on various aspects important for a student namely **Mr. Harish Nandwani VP-HR Tata Autocomp systems Ltd., Prahlad Kakkar – Indian Ad film guru, Mr. Hari Das Nair - VP and Group Head HR from Jay Bharat Maruti Group, Dr. Subramanayam Iyer - GM HR Vijay Tanks and Vessels Pvt. Ltd, Mr. Vikas Nigam - SDE, ALTTC to name a few.**

The lecture focused on introducing the various aspects of Cloud computing including how over the years it has become an efficient way to store and maintain databases and today is regarded as a helpful tool for businesses that do a lot of sales. Cloud computing basically uses a platform on the cloud for your business, which in turn helps everyone who uses it by streamlining data and procedures into one central location. Thus it can be termed as an easy way to organize information in different departments while still allowing for company-wide collaboration.

**Mr. Prashant Jain spoke extensively to the students on various aspects of cloud computing and explained how we as individuals benefit from cloud computing. He further shared his views on the scope of cloud computing in a country like India where IT sector is highly rated world over.**

"I never knew how effective a tool cloud computing actually is", stated Kunal Shah - EEE 3<sup>rd</sup> year student.

Surbhi Mewadi a CS 4<sup>th</sup> year student stated that, "I am really grateful to the management of Tula's Institute for giving us a platform to share the stage with Prashant sir. Today's guest lecture shows how the technological advancements have made things easier for all of us as compared to the earlier times".

Towards the end Ms. Silky Jain Executive Director thanked Mr. Prashant Jain for taking out time and sharing his valuable insights with the students. She further stated, "As an institution it is imperative for us to give the students a platform and I am happy to announce that very soon we will be launching our P3 program which concentrates on 3 core principles viz a viz Participation, Performance and Placements."
